Skills:

Programming Languages: C#, C++, Java, HTML, CSS, JavaScript, PowerShell
Tools: PS4 Devkit, Unity, Unreal Engine 4 & 5, GitHub, Git, Perforce, Microsoft Visual Studio, Confluence, Jira, Autodesk Maya, Blender, Photoshop

Work Experience:

Stasmayer, Incorporated *(Charleston, SC)*
Systems Integrator and Project Technician   *Mar 2025 - Sept 2025*
- Trained on the processes for delivering IT Projects to clients and users.
- Utilized automation tools such as ImmyBot and Rewst to fine-tune automatic deployment of software to workstations and integration between our tools.
- Developed Scripts in PowerShell to automate manual processes to complete projects more efficiently

Abrasives-South, Inc. *(Charleston, SC)*
Data Integration Developer   *Jan 2025 - Mar 2025*
- Developed an Automated Solution to Transmit Data between AS400 and Zoho CRM to transmit Sales Orders, Invoices, and Back Orders.
- Programmed Scripts in SQL/400, AS400 CL, and Zoho's Deluge scripting language.

Production Line Operator   *Aug 2024 - Jan 2025*
- Worked on the Glue line to glue, tape, and press material into abrasive belts

Strategic Marketing International *(Charleston, SC)*
Web Development Intern   *Aug 2020 - June 2021*
- Produced 3D and 2D assets, developed front-end and back-end code, and worked with the web development team to incorporate select pages into the developed websites.
- Communicated with clients and members of the development team to create websites that would fulfill clients' needs and promote marketing for their businesses.
